

The Laboratory Charter School of Communication and Languages

9/19/2019

Dear parents and guardians,

I welcome the opportunity to introduce myself as the new Principal at Laboratory Charter School effective September 16, 2019. Mrs. Mitchell will be facilitating my transition this year as the building leader while she also fulfills the role of oversight and supervision of the Laboratory family of schools.

I have worked in a leadership capacity in public and charter schools throughout Philadelphia for nearly two decades. My commitment to urban education and families has been demonstrated in academic achievement and building strong and positive relations with staff, students, families and other key stakeholders for the vital success of our children. I look forward to a thriving and enthusiastic upcoming school year.

I will be working diligently through collaboration with staff, students and families to fulfill the mission of Laboratory Charter School.

I welcome you to visit the building so I can personally meet you at a scheduled time during the upcoming weeks during instructional day, and if not, I certainly look forward to seeing you at report conferences in November.

Thank you,

Karen Newsome, M. Ed.
