## **8th Grade World Café Luncheon**

On Thursday, March 22, 2018 the 8th grade class (Bloomsburg University) of The Laboratory Charter School celebrated its annual World Café Luncheon with Professor Fernando Chang-Muy (School of Law and School of Social Policy & Practice at the University of Pennsylvania) and Mr. Bryan Rodriguez (UPENN/ 2010 Lab Alumni). Students had the opportunity to eat, share stories, and communicate in French in preparation for the 8th grade class trip to Montreal, Canada in June.

*Keep up the great work scholars!*

*Special thanks to Ms. Cruise for sponsoring the luncheon. Special thanks to Ms. Harvey, & Ms. Brown for coordinating the event. Special thanks to our guest speakers Professor Chang-Muy and Bryan Rodriguez. Special thanks to all our 8th graders for being model students at 4th street.*

## **PSSA Motivation for Students**

*Mr. McEaddy- Vice Principal*

As we embark on another year of state testing, I want every student to know that I believe in all of you and your ability to achieve optimal results.

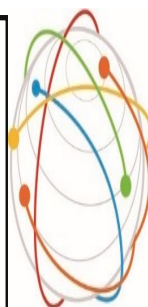

In 2013, we were honored as a two-time blue ribbon school, despite the changes in leadership, teaching staff and students, that does not have to change our fate. I encourage you all to stay committed to our mission, vision and values for student achievement so that we can show the State of Pennsylvania that the legacy of The Laboratory Charter School of Communication and Languages is here to rise above the rest!

Always remember, together, we make it happen!

**Character Trait for the month of April is "Patience"**

***Paciencia (Spanish) , La patience (French)***

*"Patience is "waiting without getting upset." Some things just take time—like growing up, traveling from one place to another, or learning something new. -Strata leadership*
